## MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Staff Members of the Senate Preparedness Investigating Subcommittee

5X1	1. (OSI) and John S. Warner met with James					
	T. Kendall, Chief Counsel, and Glenn Smith, Professional Staff Member					
	Senate Preparedness Investigating Subcommittee, and briefed them on					
	the Chinese nuclear program. furnished them with the					
	same general briefing with certain photography and charts which had					
	been furnished to the staff of the Joint Committee on Atomic Energy					
	earlier this week.					
	2. Smith appeared somewhat concerned since he apparently					
	had briefed Senator Stennis that the first explosion of a nuclear device					
	by the Chinese would not be until 1965. As Smith put it, the actual event					
	caught him short and out on a limb with the Senator. In fact there was					
	no basis for Smith being in this position based on the briefing furnished					
	him by the Agency. It was clear that it was his interpretation of those					
	briefings that put him out on the limb. Smith was also interested in					
5X1	As to these no					
	explanation was offered but as to the President's statement indicating					
	and that this would not					

Lop Nor as the site of the test, it was indicated that this would not necessarily have come from sensitive sources.

## Approved For Release 2005/03/15 : CIA-RDP66B00403R000100240003-0

3. Smith also inquired as to how the Joint Committee on Atomic Energy staff were able to send word to Committee members on the aspects. It was indicated that by orders of the DCI the staff had been briefed two days ago. Thus it appears the interchange of information and competition between the Joint Committee staff and the Senate Preparedness staff continues. Kendall and Smith seemed generally satisfied with the information furnished and were appreciative of our coming up.
